STANDARD TWO

TERM I

FOREWORD

Every little flower is beautiful.

Every little child is wonderful.

Keeping this in mind the second Standard English textbook has been designed with a view to make the tiny tots enjoy the process of learning. Sufficient care has been taken to present this book suitable for the equity education.

The prose pieces are selected to make the child know the soft relationships in and around the family; respecting grandparents, caring pet animals, participating in competitions, understanding the values of life, like loving, caring, sharing, working together, doing good to undo evil, realizing the real beauty, nature and its abundant blessings, concepts of school, super market etc.

The poetry collection is aimed at helping the child appreciate beauty and admire the similar sounding words. The colourful fish in the fish tank, funny movements of monkeys and frogs singing in tune may take the child to the world of fantasy. Action song and tick tock of the clock will make the child understand the value of exercises and time management.

The tint of grammar exercises like singular, plural, nouns, verbs, adjectives and prepositions are in a play way method. Note to the teacher has been provided in pink colour blocks, so that the teacher can facilitate the child to learn in ease .Innovative activities are included to boost the creative skills of the child. Freedom of thought and expressions are allowed to enhance the communicative skills of the child. Colourful pictures are splashed in the book to attract the attention of the child.

In every piece of writing, a moral or value has been sandwiched.

Value added education is the need of the hour.

Value packed education is aimed at through this book.

The book does not end. It continues with smiles.
